This communication is classified "SECRET" in its entirety.

Enclosed for the Bureau is an envelope which contains a possible classified document.

On September 15, 1988, UNITED STATES AIR FORCE, OFFICE OF SPECIAL INVESTIGATIONS (OSI) Special Agent contacted the Dallas FBI with the enclosed document received from claims that an individual at the school, whom he refused to name, gave it to him, claiming he received it in the mail.

Dallas notes that within the last six weeks, there has been local publicity regarding "OPERATION MAJESTIC-12" with at least two appearances on a local radio talk show, discussing the MAJESTIC-12 OPERATION, the individuals involved, and the Government's attempt to keep it all secret. It is unknown if this is all part of a publicity campaign.

from OSI, advises that "OPERATION BLUE BOOK," mentioned in the document on page 4 did exist.

Dallas realizes that the purported document is over 35 years old, but does not know if it has been properly declassified.

REQUEST OF THE BUREAU

The Bureau is requested to discern if the document is still classified. Dallas will hold any investigation in abeyance until further direction from FBIHQ.
SUBJECT: OPERATION MAJESTIC-12 PRELIMINARY BRIEFING TO PRESIDENT-ELECT EISENHOWER.

DOCUMENT PREPARED 18 NOVEMBER, 1952.

BRIEFING OFFICER: ADM. ROSCOE H. HILLenkoetter (MJ-1)

NOTE: This document has been prepared as a preliminary briefing only. It should be regarded as introductory to a full operations briefing intended to follow.

OPERATION MAJESTIC-12 is a TOP SECRET Research and Development/Intelligence operation. Information is to be handled directly and only to the President of the United States. Operations of the project are carried out under control of the Majestic-12 (Majic-12) Group which was established by special classified executive order of President Truman on 24 September, 1947, upon recommendation by Dr. Vannevar Bush and Secretary James Forrestal. (See Attachment "A"). Members of the Majestic-12 Group were designated as follows:

Adm. Roscoe H. Hillenkoetter
Dr. Vannevar Bush
Secy. James V. Forrestal
Gen. Nathan F. Twining
Gen. Hoyt S. Vandenberg
Dr. Detlev Bronk
Dr. Jerome Hunsaker
Mrs. Sidney W. Souers
Mr. Gordon Gray
Dr. Donald Menzel
Gen. Robert H. Montague
Dr. Lloyd V. Berkner

The death of Secretary Forrestal on 22 May, 1949, created a vacancy which remained unfilled until 01 August, 1950, upon which date Gen. Walter B. Smith was designated as permanent replacement.

EYES ONLY
On 24 June, 1947, a civilian pilot flying over the Cascade Mountains in the State of Washington observed nine identical, disc-shaped aircraft traveling in formation at a high rate of speed. Although this was not the first known sighting of such objects, it was the first to gain widespread attention in the public media. Hundreds of reports of sightings of similar objects followed. Many of these came from highly credible military and civilian sources. These reports resulted in independent efforts by several different elements of the military to ascertain the nature and purpose of these objects in the interests of national defense. A number of witnesses were interviewed and there were several unsuccessful attempts to utilize aircraft in efforts to pursue reported discs in flight. Public reaction bordered on near hysteria at times.

In spite of these efforts, little of substance was learned until a local rancher reported that one had crashed in a remote region of New Mexico located approximately seventy-five miles northwest of Roswell Army Air Base (now Walker Field).

On 07 July, 1947, a secret operation was begun to assure recovery of the wreckage of this object for scientific study. During the course of this operation, aerial reconnaissance discovered that four tall, human-like beings had apparently ejected from the craft at the point before it exploded. These had walked to earth about two miles east of the wreckage site. All four were dead and badly decomposed due to action by predators and then due to the elements during the approximately one week period which had elapsed before their discovery. A special scientific team took charge of removing these bodies for study. (See Attachment "C." The wreckage of the craft was also sent to several different locations. (See Attachment "D." Civilian and military witnesses in the area were debriefed, and news reporters were given the effective cover story that the object had been a misguided weather research balloon.)
A covert analytical effort organized by Gen. THIING and Dr. Bush acting on the direct orders of the President resulted in a preliminary consensus (19 September) that the disc was most likely a short-range reconnaissance craft. This conclusion was based for the most part on the craft's size and the apparent lack of any identifiable provisioning. (See Attachment "D"). A similar analysis of the four dead occupants was arranged by Dr. Bronk. It was the tentative conclusion of this group (30 November, 1947) that although these creatures are human-like in appearance, the biological and evolutionary processes responsible for their development has apparently been quite different from those observed or postulated in homo-sapiens. Dr. Bronk's team has suggested the term "Extra-terrestrial Biological Entities" or "EBEs", be adopted as the standard-term of reference for these creatures until such time as a more definitive designation can be agreed upon.

Since it is virtually certain that these craft do not originate in any country on earth, considerable speculation has centered around what their point of origin might be and how they get here. Mars remains a possibility, although some scientists, most notably Dr. Nagel consider it more likely that we are dealing with beings from another solar system entirely.

Numerous examples of what appear to be a form of writing were found in the package. Efforts to decipher these have remained largely unsuccessful. (See Attachment "E"). Equally unsuccessful have been efforts to determine the method of propulsion, or the nature or method of transmission of the power source evolved. Research along these lines has been complicated by the complete absence of identifiable wings, propellers, jets, or other conventional methods of propulsion and guidance, as well as a total lack of metallic wiring, vacuum tubes, or similar recognizable electronic components. (See Attachment "F"). It is assumed that the propulsion unit was completely destroyed by the explosion which caused the crash.

A need for as much additional information as possible about these craft, their performance characteristics and their purpose led to the undertaking known as U.S. Air Force Project SIGN in December, 1947. In order to preserve security, liaison between SIGN and Majestic-12 was limited to two individuals within the Intelligence Division of Air Material Command whose role was to pass along certain types of information through channels. SIGN evolved into Project GRUDGE in December, 1948. The operation is currently being conducted under the code-name BLUE BOOK, with liaison maintained through the Air Force Office who is head of the project.

On 06 December, 1950, a second object, probably of similar origin, impacted the earth at high speed in the El Indio-Guerrero area of the Texas-Mexico border after following a long trajectory through the atmosphere. By the time a search team arrived, what remained of the object had been almost totally incinerated. Such materials as could be recovered was transported to the A.E.C. facility at Sandia, New Mexico, for study.

Implications for the National Security are of continuing importance in that the motives and ultimate intentions of these vehicles remain completely unknown. In addition, a significant surge in the surveillance activity of these craft beginning in May and continuing through the autumn of this year has caused considerable concern that new developments may be imminent.

It is for these reasons, as well as the obvious international and technological considerations and the ultimate need to hold public peace at all costs, that the Majestic-12 Group report of the unclassified portion that imposition of the strictest security precautions should continue without interruption into the new administration. At the same time, contingency plan NMJ-1949-012/78 (Top Secret - Eyes Only) should be held in continued readiness should the need to make a public announcement present itself. (See Attachment #G.)

At 12:10 p.m. on 10/18/91, an individual identifying himself as telephonically contacted the Salt Lake City Division and spoke with the duty Agent. 

He identified himself as an employee of the Salt Lake City Division, Utah. Telephone number and extension are advised. He advised that while walking through the lobby of his place of employment on the morning of 10/18/91, he found the enclosed document lying on the lobby floor. He stated that he read the document and due to the nature of the contents thereof, decided to contact the FBI. During the early afternoon of 10/18/91, he delivered the enclosed document to the receptionist in the Salt Lake City Field Office.

Salt Lake City indices are negative on.

A review of public source records revealed the following information:

Based upon the contents of the document and the manner in which it was recovered, Salt Lake City initially dismissed the document and its classification markings as a hoax. In an effort to determine possible DOD interest in the unusual document, via referenced source call all on 10/25/91, SSA...was provided with a synopsis of the contents of the enclosed document, with a request for him to determine through his DOD contacts any DOD interest in "OPERATION MAJESTIC-12", U.S. AIR FORCE "PROJECT SIGN" or "PROJECT GRUDGE".
Based upon DOD representations made to SSA which, incredibly, tended to buttress a portion of the document, he discussed this matter with DAD BRANDON on 10/30/91. Based upon those DOD comments and DAD BRANDON’s instructions, Salt Lake City is submitting the enclosed document to FBIHQ in order for the latter to further determine any DOD interest in the enclosed document which discusses the three above-mentioned code name operations.
